Department of Sanskrit Seminar on 12.09.2015

A Report of the Seminar

Topic : "Kalidasasya Meghadoote Prachina Bharatasya Bhoulalika Chitram"

Resource Person: Prof. Gouri Prasad Rath Lect. In Sanskrit
BCS Mahavidyalaya Jageswarpada.

A seminar on the above topic was organized by the Department of Sanskrit on 12.09.2015. Dr. Narendra Prasad Bugudei, Principal presided over the meeting and Prof. Gouri Prasad Ratha was invited to deliver a talk on the topic. Forty nos. of students participated in the seminar. 7 papers were presented by the students. Prof. Dr. Jadunath Mishra and Prof. Rabindra Kumar Sahoo scope on the topic. All the speakers highlighted on the Geographical feature of Ancient India as to Mahakabi Kalidasa.

Objective of the seminar:- By discussion on the topic the students could know about the ancient map of India. In Kalidasa's Meghadootam it has been narrated clearly. They also knew about the Indian (ancient) rivers, mountains, villagers, woods and others. A clear picture of ancient India could be traced by our young students. The objective was fulfilled with the closure of the seminar.

Report of the Seminar

Topic : "Upanishatsu Neetishiksha"

Resource Person: Prof. Sarat Chandra Mohanty Lect. In Sanskrit
Sanskrit College Oupada

Departmental Seminar on the topic "Upanishatsu Neetishiksha" was organized on 25.02.2016 by the Department of Sanskrit. Dr. Narendra Prasad Bugudei presided in the seminar. Due to bad weather only 10 nos. of students participated in this seminar. Prof. Sarat Chandra Mohanty, Lect. In Sanskrit of Oupada College was the invited resource person. He and the faculty members focused on ethical value of Upanishads.

Objective: By organizing a seminar on this philosophical topic the students would know the ethics of human life. They can have very minute knowledge on the morality that we learn from Upanishads. They would learn that everything in the universe is belonging to God. Nobody should desire for others wealth. Further they would know the teachings of Upanishads which is benefited to the society.

The objective was fulfilled by holding a seminar on this valuable topic.

Topic : **Fundamental Rights Date- 07.09.2015**
Resource Person : **Dr. Gouri Shankar Panda, Reader in Political Science**
Dr. J.N. College, Rasalpur, Balasore, Odisha.

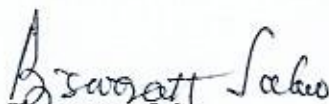

A departmental seminar was organized on 07.09.2015. The topic of the seminar was "Fundamental Rights". Dr. Gouri Shankar Panda, Reader in Political Science, Dr. J.N. College, Rasalpur, Balasore was the Resource Person. The key notes address was given by Sri Bisrwanath Sahoo, the organizing Secretary of the seminar. 40 students participated in the seminar.

Synopsis:

Fundamental Rights are fundamental for the governance of the country. As a conscience keeper of the constitution, these Rights serve the purpose of its prototype that Magnacarta and bill right of Great Britain. The sum totals of fundamental right enshrined in the constitution are the semblances of Rights as placed in the universal declarations of Human rights 1948. Since the very inception of post-independence a tug of war continued in between parliament and the Supreme Court in regard to the superiority and in violability of Rights. Parliamentary supremacy prevailed over the judiciary in several cases and the judiciary stood as a citadel in several cases confronting state and individuals.

Hon'ble Resource Person Dr. Panda focuses on the important of the Rights and the constitutional significance of Fundamental Rights. Departmental faculties present in the seminar highlighted on liberty and equality and deep association of these concepts with the dignity and development of the people.

The Seminar ended with a vote of thanks

Topic : Indian Secularism Date- 04.05.2017
Resource Person : Amiya Kumar Palita, Rtd. Principal
Gopalpur College, Gopalpur, Balasore, Odisha

A departmental seminar was organized on 04.05.2017. The topic of the seminar was "Indian Secularism". Amiya Kumar Palita, Retd. Principal (I/C), Gopalpur College, Gopalpur, Balasore, Odisha was the Resource Person. The key notes address was given by Sri Bisrwanath Sahoo, the organizing Secretary of the seminar. 41 students participated in the seminar.

Synopsis:

Secularism which derived from the word 'SAECULUM' specifically meant for earthly and not connected to heavenly objects. It treats all man as citizens with Plethora of freedom and keeps religion at the Bay of Private affairs. Indian secularism believes in 'SARBA DHARMA SAMANWAYA' and upliftment of all. Despite a secular constitution India and its political elites are in many occasions attributed with Pseudo secular and not sticking to the core meanings. India a multi-cultural country can in no way able to succeed and go ahead with exclusive nature of governance and polity. Equality and impartial treatments to all sects are necessary.

Hon'ble Resource Person Sri Palita narrated about secularism and various hotspots pertaining to secular values. Departmental faculties talked about Indian secularism and its impact on Indian Democracy and inclusiveness.

The seminar ended with a vote of thanks.

Department of Chemistry

A Seminar Report

Dated : 20.12.2016
Topic : Radial and Angular wave function
Resource person : Dr. Satyabrata Dash, Reader in Chemistry
U.N. College, Soro, Balasore

A departmental seminar on the topic "Radial & Angular wave function" was organized on Dt: 20.12.2016 Dr. Satyabrata Dash, Reader in Chemistry, U.N. College, Soro, Balasore was the Resource Person. Department HOD, Mr. Gadadhar Barik, Mr. Blaram Nayak, Lect. In Chemistry and The Resource Person Prof. Dr. Satyabrata Dash enlightened all on the topic 12 students attended in the seminar.

Synopsis:

An orbital is a mathematical function called a wave function that describes an electron in an atom. Radial wave function for a given atom depends only upon the distance r from the nucleus. Angular wave functions depend only upon the direction and in effect describe the shape of an orbital. The wave function is a complex value of probability amplitude. The most common symbols for wave functions are the Greek letter ψ . Wave function mathematically describes the wave characteristic of a particle. Each wave function has two parts, the radial part which changes with distance from the nucleus and angular part which changes correspond to different shape.

The Seminar is ended with a vote of thanks.

Department of Physics

A Seminar Report

Topic : Thermocouple
Dated : 16.11.2016
Resource Person : Mr. Shridhar Behera, Lect. in Physics.
Dr. J.N. College, Rasalpur

Synopsis:

Thermocouple is a device which converts thermal energy into electrical Energy. A thermocouple comprised of at least two metals joined together to form two junctions. One is connected to the body whose temperature is to be measured. This is hot or measuring junction. The other junction is connected to the body of known temperature, this is cold or reference junction. Therefore thermocouple measures unknown temperature of the reference to the known temperature of the other body.

A departmental Seminar was organized on Thermocouple dt. 16.11.2016 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Shridhar Behera, Lect. in Physics, Dr. J.N. College, Rasalpur. 16 students of the department are participated in this seminar.

Synopsis

Working Principle

It mainly depends on three effects namely Seeback, Pettier, and Thompson.

Advantages

- ❖ Accuracy is high.
- ❖ Thermal reaction is fast.
- ❖ Operating range of temperature is wide
- ❖ Cost is low and extremely consistent.

Application

- ❖ These are used as the temperature sensors in thermostats in offices, homes and business.
- ❖ These are used in industries for monitoring temperature of metals in iron, aluminum and metal.

Topic : Legal Rights of Women. Date-07-02-2018
Resource Person : Dr. Jayanta Kumar Dwibedy, Reader in Pol. Science
Dr. J.N College, Rasalpur, Balasore.

A departmental seminar was organized on 07.02.2018. The topic of the seminar was "Legal Rights of Women". Dr. Jayanta Kumar Dwibedy, Senior Lect. in Pol. Science, Dr. J.N. College, Rasalpur, Balasore was the Resource Person. The key notes address was given by Sri Bisrwanath Sahoo, the organizing Secretary of the seminar. 40 students participated in the seminar.

Synopsis:

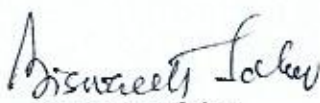

Men and Women play vital role in society. Maximum enjoyment of Rights by the former at the cost of the latter is unfair and prejudicial to human code. Present age accords a place of pre-eminence to the legal Rights of women. Indian constitution vide Art-14,25,19,20,21,23,39,51(A), 243(C), 73 AND 74TH amendment has piloted the cause of women and their

rights. Legal provision available for Women Rights are special marriage Act-1954 Hindu marriage Act-1955, Hindu succession Act 1956, Dowry prohibition Act-1961 and 1985, Immoral Traffic Prevention Act-1956. M.T.P Act-1971 and Family court Act-1971 etc. well codified Law though present; women are still in a state unease and helplessness that need to be mitigated.

Hon'able Resource Person Dr. Dwibedy spoke about the plight of the Indian Women and various ameliorative measures taken by the Government for the betterment of the women. Departmental faculties present in the seminar discussed about Women Rights and various liberation movement.

The Seminar ended with and vote of thanks.

Topic : India and Human Rights Date-27-02-2018
Resource Person : Dr. Bhagaban Prusty
Sidheswar College, Amarda Road, Balasore.

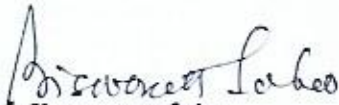

A departmental seminar was organized on 27.02.2018. The topic of the seminar was "India and Human Rights". Dr. Bhagaban Prusty, Reader in Pol. Science, Sidheswar College, Amarda Road, Balasore was the Resource Person. The key notes address was given by Sri Biswanath Sahoo, the organizing Secretary of the seminar. 42 students participated in the seminar.

Synopsis:

India and its composite culture are deeply related to Human values and Human Rights. Post 2nd world war and the follow up developments in the universal Declaration of Human Rights in 1948, provided fertile ground for imbibing canons of Human Rights in the Part-III of the constitution. Fundamental Rights portray the human liberty and equality enshrined in U,N charter. The ancestral Vedic and upanishadic values very akin to present day Human Rights get clouded by the changing socio-economic, political and cultural decline. Post-independent India is moving across the surface of cultural decline, the offshoot of Human Rights violation. All nefarious attempts of violation are to be prevented with stern enforcement measures.

Hon'able Resource Person Dr. Prusty spoke about Human Rights in relation to the composite culture of India. The Departmental faculties present in the seminar discussed about India a liberal values associated with Human Rights.

The Seminar ended with and vote of thanks.

A SEMINAR REPORT

A departmental Seminar on the topic entitled as "Concept of Nationalism in education" was organised on dt 27.12.2017 in the Department of Education. Sri Maheswar Sahoo, Reader in Education H.K Matab college, Kupari, Balasore joined the seminar as its resource person. The organizing secretary Mr. Rakesh Sethi presented his keynote address on the topic "value oriented education". Students of the Department and faculty members remained present and participated in discussion. 40 students presented in the Seminar. Sri Maheswar Sahoo, Reader in Education H.K Matab college, Kupari, Balasore discussed importance of Nationalism in Education from different angles.

The seminar was concluded with a vote of thanks to all by Mr. Rakesh Sethi.

Objectives:

1. The desire for or advocacy of national independence.
2. Devotion to one's nation, Patriotism.
3. Any situation in which a nation comes together for a specific cause.

A Seminar Report

Topic: "Choice of Technology in India"

Date: 02-11-2017

Resource Person: Dr. Sarat Chandra Panigrahi, Reader in Economics

U.N. College Soro, Balasore

Prof. Santosh Kumar Giri, Reader in Economics

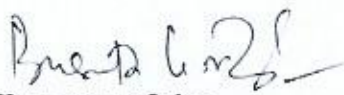

Sidheswar College, Amarda Road

A Departmental Seminar on the topic "Choice of Technology in India" was organised by the Dept. of Economics on date 02.11.2017. The seminar was presided over by the Principal of the College Sri Naresh Kumar Parhi, Dr. Sarat Chandra Panigrahi, Reader in Economics, U.N. College, Soro, and Prof. S.K. Giri, Reader in Economics, Sidheswar College, Amarda, Balasore attended the Seminar as a Resource person. 40 students of the department attended the Seminar as delegates of the seminar. The topic was introduced for discussion by Basanta Kumar Mishra, the organizer of the seminar.

Objectives:

- To make the students aware about the technology India use .
- To improve the information basket about the choice of technology.
- Provide students with opportunities to represent and express their prior knowledge.

The presentation of papers by the students was encouraged and their questions were replied. The Seminar was concluded with vote of thanks by Mr. Basanta Kumar Mishra the faculty of the Department.

A Seminar Report

Topic: "VICIOUS CYCLE OF POVERTY AND DISGUISED UNEMPLOYMENT" Date: 20.01.2018

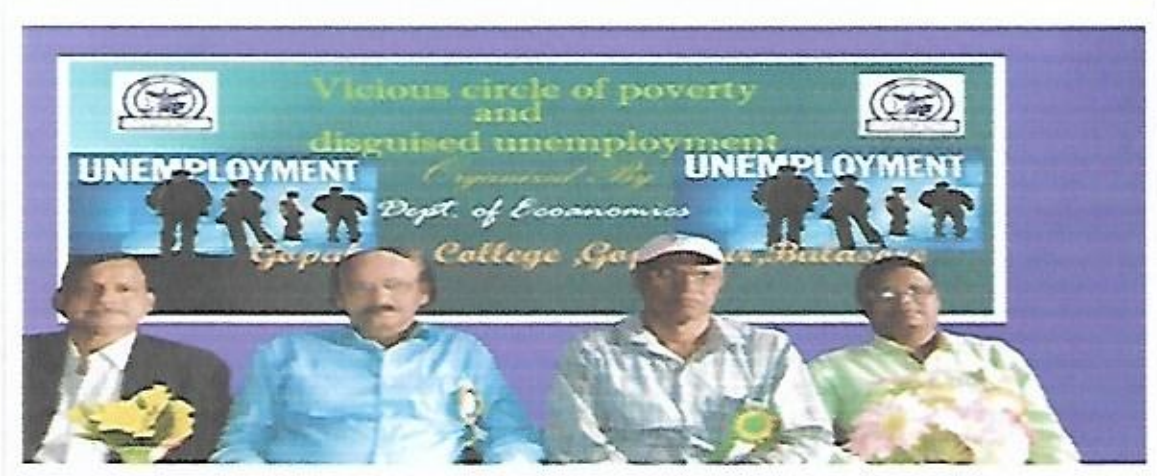

Resource Person: Prof. Kamala Kanta Acharya

Retired Principal, J.N. College Rasalpur, Balasore

A Departmental Seminar on the topic "VICIOUS CYCLE OF POVERTY AND DISGUISED UNEMPLOYMENT" was organised by the Dept. of Economics on date 20.01.2018. The seminar was presided over by the Principal of our College Prof. Naresh Kumar Parhi, Dr. Kamalakanta Acharya, Retd. Principal Dr. JN College Rasalpur presently the director of Academy of Business Administration, Balasore, Biswanath Sahoo, Reader in Pol. Science, Gopalpur College, Gopalpur, Balasore attended the Seminar as Resource person. 48 students of the department attended the Seminar. The keynote address was presented by Mr. Basanta Kumar Mishra the organiser of the seminar. The Resource person presented the condition of poor class, marginalized group, laborious, widows, landless farmers a refugees wanderers and beggars of the country. They also highlighted on the criminal activities such as theft, cheating, exploitation mistrust ect. occurred due to "vicious cycle of poverty and unemployment". Prof. Sahoo focused on political aspect of emotional exploitation of the poor people.

Objectives:

- To make the students aware about the problem of unemployment.
- To improve the information basket about the Vicious Cycle of Poverty and Disguised Unemployment.

The seminar was over with a vote of thanks to all

Department of Physics

A Seminar Report

Topic : CRO
Dated : 28.10.2017
Resource Person : B.C. Prusty, Lect. in Physics.
Nilgir College, Nilgir

Synopsis

The cathode Ray oscilloscope is an electric test instrument. It is used to obtain waveforms when different input signals are given. The oscilloscope observes the change in electrical signals overtime, thus the voltage and time describe a state and it is continuously graphed beside a scale. By seeing the wave form, we can analyse some properties like amplitude, frequency, rise time, distortion, time interval etc.

A departmental Seminar was organized on CRO dt. 28.10.2017 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. B.C.Prusty, Lect. in Physics, Nilgir College, Nilgir. The faculty member Mr. Sanjit Kumar Giri was also present and took part in the discussion. 30 students of the department are participated in this seminar.

Working

The working of CRO is based different system like vertical deflection system, horizontal deflection system.

Application

It is used to measurement of voltage and current.

Uses

It can display different types of wave forms.

It can measure short time interval.

A Seminar Report

Topic : Theory of Relativity
Date : 18.12.2017
Resource Person : Mr. Chandan Kumar Nayak, Lect. in Physics.
Swarnachuda Mahavidyalaya, Mitrapur

Synopsis

The theory of relativity usually encompasses two interrelated theories by Albert Einstein special theory of relativity and general theory of relativity. Special theory of relativity applies to all physical phenomena in the absence of gravity. General relativity explains the law of Gravitation and its relation to the forces of nature. It is applied to the cosmological and astrological including astronomy.

A departmental Seminar was organized on Theory of relativity dt. 18.12.2017 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Chandan Kumar Nayak, Lect. in Physics, Swarnachuda Mahavidyalaya, Mitrapur. The faculty member Mr. Sanjit Kumar Giri was also present and took part in the discussion. 28 students of the department are participated in this seminar

Advantages

The theory explains the behavior of objects in space and time and it can be used to predict everything from the existence of blank holes to light belong due to gravity to the behavior of the planet mercury in its orbit.

Department of Chemistry
A Seminar Report

Dated : 23.08.2017
Topic : Bragg's Equation
Resource person : Somanath Sahu , Reader in Chemistry
Khaira College , Khaira, Blasore, Odisha

A departmental seminar on the topic "Bragg's Equation" was organized on Dt: 23.08.2017. Dr. Somanath Sahu, Reader in Chemistry, Khaira College, Khaira, Balasore was the Resource Person. Department HOD, Mr. Gadadhar Barik & Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Dr. Somanath Sahu enlightened all on the topic. 22 nos. of students were participated in the seminar.

Synopsis:

Bragg's law was introduced by Sir W.H Bragg and his son W.L. Bragg . this law states that when the X-Ray is incident onto a crystal surface, it's angle of incidence will reflect back with a same angle of scattering .Bragg's law provides the condition for a plane wave to be diffracted by a family of lattice plane $2d\sin\theta = n\lambda$, where d is the lattice spacing, θ is the angle between the wave vector of the incident plane wave, λ is the wavelength and n is the integer. Moving particles including electron, proton and neutron have an associated wave length, called as de Broglie wavelength. A diffraction pattern is obtained by measuring the intensity of scattered waves as a function of scattering angle. Very strong intensities known as Bragg's peak are obtained in the diffraction pattern at the point when the scattering angles satisfy Bragg condition.

The Seminar is ended with a vote of thanks.

Department of Chemistry

A Seminar Report

Dated : 24.02.2018

Title : Molecular Shape of noble gas compounds

Resource person : Sumanta Kumar Dey, Lect. in Chemistry
A.B. College, Basudevpur, Bhadrak

A departmental seminar on the topic "Molecular Shape of noble gas compounds" was organized on Dt: 24.02.2018. Mr. Sumant Kumar Dey, Lect. In Chemistry, A.B. College, Basudevpur was the Resource Person. Department HOD, Mr. Gadadhar Barik & Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Mr. Sumant Kumar Dey enlightened all on the topic. 20 nos. of students were participated in the seminar.

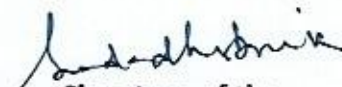

Synopsis:

Noble gas compounds are chemical compounds that includes the elements from noble gas ,group-18 of the periodic table. In 1962,Neil Bartlet, who was first discovered the noble gas compound $Xe[PtF_6]$.The first binary noble gas compound were reported later ,Bartlett synthesized XeF_4 by subjecting a mixture of xenon and fluorine to high temperature. Xenon mainly form noble gas compounds like XeF_2 , XeF_4 , XeF_6 , $XeOF_2$, XeO_3 etc. Xenon hexa fluoride has distorted

octahedral geometry. similarly XeF_2 , XeF_4 , $XeOF_2$, XeO_3 have linear, square planar ,T-shape and pyramidal geometry respectively. In all these compounds, Xenon atom carries lone pair electron, so that geometry of these molecules becomes irregular. Some of ionic noble gas compound of Xenon are $[XeF_3]^+$, $[XeF_5]^+$, $[XeF_5]^-$, $[XeF_8]^{2-}$ etc.Krypton also makes compounds mixing with fluorine as KrF_2 , KrF_4 etc.noble gas forms a special complex called clathrates , such as quinol clathrates,hydrate clathrates.Clathrate compounds of Ar,Kr,Xe have been prepared by entrapping these gases in the cages of water,phenol,p-cresol,quinol etc.

The Seminar is ended with a vote of thanks.

A SEMINAR REPORT

Topic: - Blood Composition and Its function

Dt. 15/10/2017

Resource person :- Mrs. Swadhina Padhiary

Lect. In zoology , Saraswata Mahabidyalay , Anantapur , Balasore

A departmental seminar on the topic 'Blood Composition and its function' was organized on 15.10.2017 in the department of Zoology. Mr. Abhay Kumar Mohanty the organizing secretary presented the keynote address on seminar after formal inauguration of the seminar by Prof. Naresh Kumar Parhi, the Principal. Mrs. Swadhina Padhiary lect. In Zoology Saraswata Mahavidyalaya Annantapur attended the seminar as resource person. 24 students of the department participated in the seminar and took part in the discussion.

The discussion held on Blood as modified liquid connective tissue as the cellular components are separated tissue by a considerable amount of liquid substance called plasma. In human body it is about 7% of total body weight which performs many important functions within the body including supply of oxygen to tissue . supply of nutrients and removal of wastes and immunological function. This seminar is most essential for the students for their future study and field of research and pathological study in future. The seminar was ended with vote of thanks to all.

A Seminar Report

Topic: "GOODS AND SERVICES TAX (GST)"
Date: 20.10.2018
Resource Person: Sri Bijay Kumar Mohapatra
Shantilata Mahavidyalaya, Uitikiri
Mr. Jagabandhu Barik, Reader in Economics
Simulia College, Markona

A Departmental Seminar on the topic "GOODS AND SERVICES TAX (GST)" was organised by the Dept. of Economics on date 20.10.2018. The seminar was inaugurated by the Principal of the College Prof. Naresh Kumar Parhi, Mr. Bijay Kumar Mohapatra, of the department Economics, Shantilata Mahavidyalaya, Uitikiri, and Mr. Jagabandhu Barik, Reader in Economics, Simulia College attended the Seminar as Resource persons. 46 no. of students of the department attended the Seminar. the resource persons presented their report on usefulness merits and demerits of goods and service tax.

Objectives:

- To make the students aware about GST.
- To improve the information basket about the comparison between past Tax system and GST
- Provide students with opportunities to represent and express their prior knowledge

The last part of the seminar was devoted to questionnaire and paper presentation. The seminar was ended with vote of thanks.

A Seminar Report

Topic : Space Wave Propagation
Date : 27.12.2018
Resource Person : Mr. Amar Ballav panda, Lect. in Physics.
Nilgir College, Nilgir

Synopsis

Space wave propagation is defined for the radio waves that occur within the 20 km of the atmosphere that troposphere comprising of a direct and reflected waves. These wave also known as tropospheric propagation as they can travel propagation as they can travel directly from the earth's surface. It is also known as line of sight propagation as the signals are sent in a straight line from the transmitter to the receiver.

A departmental Seminar was organized on Space Wave Propagation dt. 27.12.2018 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Amar Ballav Panda, Lect. in Physics, Nilgir College, Nilgir. The faculty member Mr. Sanjit Kumar Giri was also present and took part in the discussion. 41 students of the department are participated in this seminar

Application

- ± It is used in a line of sight communication and satellite communication.
- ± It is used in a Radar communication.
- ± It is used in a Microwave lining.

Limitations

These waves are affected by the curvature of the earth.

A Seminar Report**

Topic : Laser and its Application
Date : 12.02.2019
Resource Person : Mr. Pravat Ranjan Das, Lect. in Physics.
L.N. Mahavidyalaya, Jamsuli

Synopsis

Laser is a device that amplifies or increases the intensity of light and produces highly directional light. Laser not only amplifies or increases intensity of light but also generates the light. Laser emits light through a process called stimulated emission of Radiation which amplifies or increases the intensity of light. Some laser generated visible light but others generate ultraviolet or infrared rays which are invisible.

A departmental Seminar was organized on Laser and its Application dt. 12.02.2019 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Pravat Ranjan Das, Lect. in Physics, L.N. Mahavidyalaya, Jamsuli. The faculty member Mr. Sanjit Kumar Giri was also present and took part in the discussion. 39 students of the department are participated in this seminar

Principle

In laser photons are interacted in three ways when atoms that absorption of radiation, spontaneous emission and stimulated emission.

Types of Laser

Laser are classified into 4 types

1. Solid state laser.
2. Gas laser
3. Liquid laser
4. Semiconductor laser.

Application

- ❖ Laser in Medicine
- ❖ Laser in communications
- ❖ Laser in Industries.

A Seminar Report

Dated 10.07.2018

Title : Designing of Fusion reactor, the future solution of Energy Crisis

Resource person : Dr. Somanath Sahu , Reader in Chemistry
Khaira College , Khaira, Balasore, Odisha

A departmental seminar on the topic "Designing of Fusion reactor, the future solution of Energy Crisis" was organized on Dt: 10.07.2018. Dr. Somanath Sahu, Reader in Chemistry, Khaira College, Khaira, Balasore was the Resource Person. Department HOD, Mr. Gadadhar Barik & Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Dr. Somanath Sahu enlightened all on the topic. 22 nos. of students were participated in the seminar.

Synopsis:

The nuclear fusion reaction generates the energy in the interior of sun. The vision of a power producing fusion reactor based on controlled thermonuclear reaction emerged more than a quarter of a century ago, and the remarkable progress has taken place in recent year. Unlike most of other energy sources, the fuel available to fusion reactors is almost limitless. Fusion reaction involving deuterium and tritium nuclei, the fuel heated to a temperature, in excess of 10 million degrees centigrade. At such temperature, the fuel

becomes fully ionized leaving behind a collection negatively charged particles referred as plasma. Nuclear fission proceeds through a chain reaction. The energy available from a fusion reactor is sustainable for the future.

The Seminar is ended with a vote of thanks.

Department of Chemistry

A Seminar Report

Dated : 07.12.2018
Title : Save Ozone Layer and Save our Mother Earth
Resource person : Dr. Satyabrata Dash, Reader in Chemistry
U.N. College, Soro, Balasore

A departmental seminar on the topic "Save Ozone Layer and Save our Mother Earth" was organized on Dt: 07.12.2018. Dr. Satyabrata Dash, Reader in Chemistry, U.N. College, Soro, Balasore was the Resource Person. Department HOD, Mr. Gadadhar Barik, Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Dr. Satyabrata Dash enlightened all on the topic. 40 nos. of students were participated in the seminar.

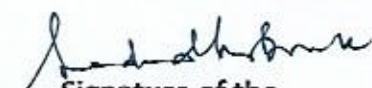

Synopsis:

Ozone layer is a region of earth stratosphere that absorbs most of the Ultra violet radiation. It contains a high concentration of ozone .ozone is the triatomic oxygen atom. Ozone layer was discovered by French physicist Charles Fabry and Henry Buisson. The ozone layer absorbs 97-99% of the U.V. light ,which otherwise would potentially damage exposed life forms near the surface. Ozone

layer was being depleted by chemicals like mainly chlorofluorocarbon .Ozone layer depletion causes the skin cancer in humans and other ecological problems. Ozone layer can be depleted by free radical catalyst including nitric oxide, nitrous oxide, atomic chlorides etc.ozone depleting substance like chloro flouro carbon has a significant positive contribution to the fight against climate change. Ozone depletion is greatest at the south pole. It occurs mainly in late winter and early spring and peak depletion occurs in early October. In 1987, to address the destruction of the ozone layer, the international community established the Montreal protocol on ozone depleting substances .it was the first international treaty to be signed by all countries in the world.

The Seminar is ended with a vote of thanks.

Topic: - Oxidation of fatty Acid

Dt :- 22/01/2019

Resource person: - Mrs. Swadhina Padhiary

**Lect. In zoology , Saraswata Mahabidyalay , Anantapur,
Balasore**

A departmental seminar on the topic 'Oxidation of fatty acid' was organized on 22.01.2019 in the department of Zoology. Dr. Abhay Kumar Mohanty the organizing secretary presented the keynote address on seminar after formal inauguration of the seminar by Prof. Naresh Kumar Parhi, the Principal. Mrs. Swadhina Padhiary lect. In Zoology Saraswata Mahavidyalaya Annantapur attended the seminar as resource person. 28 students of the department participated in the seminar and took part in the discussion. Lipids are a group of naturally occurring organic compounds there are soluble in non-polar organism solvent but soluble in water. They are composed of C, H and O in form of fatty acids and glycerol. Mitochondrial oxidation of fatty acid takes place in the three stages. In first stage in β -oxidation of fatty acid undergo oxidative of successive two carbon in 2nd stage of fatty acid oxidation. The acetyl CoA are oxidized to CO₂ in the citric acid cycle . These are also takes place in the mitochondrial matrix. Acetyl CoA derived from glucose via glycol sis and private oxidation. This seminar will help the students for their future research work and study of biochemistry. The seminar was ended with vote of thanks to all.

DEPARTMENT OF HINDI

A Seminar Report

Topic: Premchand Katha Sahitya Main Dalit Bimarsh

Date: 18.02.2020

Resource Person: Dr. Bijay Ku. Mohanty

Synopsis

A Departmental seminar was organized on 18th February 2020, Tuesday at 1:30 P.m. with the faculty and students of Hindi department. Prof. Dr. Bijay ku. Mohanty the H.O.D of P.G. Department of Hindi F.M. Autonomous College Balasore, writer, poet and translator attended the seminar as resource person. The seminar was inaugurated by Prof. Naresh Kumar Parhi the Principal of the College. The topic of discussion was "PREMCHAND KATHA SAHITYA ME DALIT BIMARSH". 24 students of the department participated in the seminar and some of them presented their views on the topic.

The keynote on the seminar was presented by the faculty member Dr. Kalyani Dash organizing secretary and HOD of the Department the welcome address was delivered by Dr. K. Dash (H.O.D of dept.).

The topic:- "PREMCHAND KATHA SAHITYA ME DALIT BIMARSH" was introduced for discussion. The great poet, writer, translator, novelist Munsi Premchand who is known as the king of novel. He believes that novel means the human history. "Satyameva Jayate" – Truth alone triumphs, these words embellish our national emblem, however the question is what is our truths as Indians? Is it the paradox that on even being the world's largest democracy, India is an abode of perennial caste system?

OBJECTIVES:-

1. The seminar was organized to revise elements of DALIT BIMARSH i.e absurd to the students.
2. DALIT LITERATURE came into focus in 1958. We had been blessed with a pioneer who helped us to understand how our land of non violence is periodically jarred by exclusion, discrimination and exploitation of DALITS or untouchables.
3. It creates a golden opportunity participants to synthesize the materials for an innovative idea for them.
4. The overall interaction helped for eternal contribution of Premchand to the DALIT LITERATURE.

The Seminar was over with a vote of thanks to all.

A Report on the Seminar

Topic : "Contribution of Puranas to our society"

**Resource Person: Bapi Sahu Lect. in Purana.
B.C. Sanskrit College.**

A seminar on the topic "**Contribution of Puranas to our society**" was organized by Department of Sanskrit on 04.12.2019. Prof. Rabindra Kumar Sahoo HOD presided over the seminar. Miss Tapaswani Sahoo Ex lect. In Sanskrit of this college was requested to remain present in the seminar and Prof. Bapi Sahu lect. In Purana B.C. Sanskrit College, Jageswar pada was the resource person. He delivered a nice speech on the topic. 28 nos. students participated in the seminar.

Objective: To enlighten the students on the importance of puranic literature in the present context of the society. To make them aware of different character who have sacrificed their lives for the society. To educated the students in moral teaching of Puranas.

The objectives were fulfilled with enumeration of different examples from Purana literature.

Topic: "PRESENT SLOWDOWN OF INDIAN ECONOMY" Date: 13.11.2019

Resource Person: Dr. Suryarani Satpathy, Retired Reader in Economics
AB College, Basudevpur
Dr. Sarat Chandra Panigrahi, Reader in Economics,
U.N. College Soro.

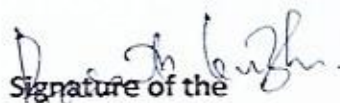

A Departmental Seminar on the topic "PRESENT SLOWDOWN OF INDIAN ECONOMY" was organised by the Dept. of Economics on date 13.11.2019. The seminar was presided over by the Principal of our College Sri Naresh Kumar Parhi, Dr. Suryamani Satapathy, Retd. Reader in Economics, Dr. Sarat Chandra Panigrahi, Reader in Economics, U.N. College, Soro attended the Seminar as Resource person. 42 students of the department attended the Seminar. Mr. Basanta Kumar Mishra presented his keynote address. The resource persons focused on present slowdown of Indian economy.

Objectives:

- To make the students aware about Present slowdown of Indian Economy.
- To improve the information basket about causes of Present slowdown of Indian Economy.
- Provide students with opportunities to represent and express their prior knowledge.

A SEMINAR REPORT**

TOPIC: "Anemia its cause and remedies"
DATE: 23.09.2019
RESOURCE PERSON:- Mrs. Monalisa Jena
Remuna Degree College, Balasore.

A departmental Seminar on the Topic "Anemia its cause and remedies" was organized by Jyotshna Mayee Sethi, Lect. in Home Science on dt 23.09.2019. The seminar was presided over by the Principal of Gopalpur College, Gopalpur S.J. Naresh Kumar Padhi. Resource Person Mrs. Monalisa Jena, Remuna Degree College, Balasore attended the seminar. 20 no. of students participated in this seminar.

Objectives of the Seminar:

- The goal of treatment is to increase the amount of oxygen that your blood can carry.
- This is done by raising the red blood cell count and/or hemoglobin level. (Hemoglobin is the iron-rich protein in red blood cells that carries oxygen to the body.)
- Another goal is to treat the underlying cause of the anemia.

The vote of thanks was given by Suchismita Behera, the students of the department.

Department of Physics

A Seminar Report

Topic : Cyclotron
Date : 10.01.2020
Resource Person : Mr. Amar Ballav Panda, Lect. in Physics.
Nilgir College, Nilgir

Synopsis

Cyclotron is a device used to accelerate charged particles to high energies. It works on the principle moving normal to a magnetic field experiences magnetic force due which the particle moves in a circular.

A departmental Seminar was organized on Cyclotron dt. 10.01.2020 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Amar Ballav Panda, Lect. in Physics, Nilgir College, Nilgir. The faculty member Mr. Sanjit Kumar Giri and Elish Panda were also present and took part in the discussion. 38 students of the department are participated in this seminar

Limitations

- ❖ Cyclotron cannot accelerate uncharged particles like neutrons.
- ❖ It cannot accelerate electrons because of its small mass.
- ❖ It cannot accelerate positively charged particle with large mass due to relativistic effect.
- ❖ It is suitable for accelerating heavy charged particle.
- ❖ It is not suited to very high K.E.

Uses

- ⚡ The high energy particles produced in a cyclotron are used to bombard nuclei and study the resulting nuclear reaction and investigate nuclear.
- ⚡ It is used to in plantations into solids and modify their properties or even synthesis new materials.

Faculties Participated-

Mrs. Snehalata Tripathy (HoD)
Mr. Sanjit Kumar Giri (Lecturer)
Miss Elish Panda (Lecturer)

A Seminar Report

Topic : Gravity Waves
Date : 07.11.2019
Resource Person : Mr. Rupak Kumar Behera, Lect. in Physics.
Balangi Mahavidyalaya, Sunhat, Balasore

Synopsis

Gravitational waves will not allow us to test the predictions of General relativity in regions of strong gravity but will also serve as a tool to expand our understanding of the universe. Direct observations of Gravitational waves are being pursued by an international network of advanced laser inter-perometric detectors.

Gravitational waves are disturbances in the curvature of space time generated by accelerated masses that propagate as waves outward from their surface at the speed of light.

A departmental Seminar was organized on Gravity Waves dt. 07.11.2019 under the chairman ship of HOD Snehalata Tripathy. The Resource Person present in the discussion was Mr. Rupak Kumar Behera, Lect. in Physics, Balangi Mahavidyalaya, Sunhat, Balasore. The faculty member Mr. Sanjit Kumar Giri was also present and took part in the discussion. 35 students of the department are participated in this seminar

Department of Chemistry
A Seminar Report

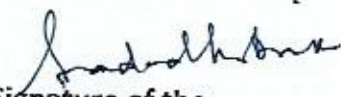

Dated : 28.11.2019
Title : Twelve Principles of Green Chemistry
Resource person : Mr. Pratap Kumar Kar , Lect. in Chemistry
Jambeswar College, Garshang, Balasore

A departmental seminar on the topic "Twelve Principles of Green Chemistry" was organized on Dt: 28.11.2019. Mr. Pratap Kumar Kar, Reader in Chemistry, Jambeswar College, Garshang was the Resource Person. Department HOD, Mr. Gadadhar Barik & Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Mr. Pratap Ku. Kar enlightened all on the topic. 40 nos. of students were participated in the seminar.

Synopsis:

Green chemistry is the design of chemical products and processes that reduce or eliminates the use or generation of hazardous substances. Green chemistry applies across the life cycle of a chemical product, including its design, manufacture, use and unlimited disposal. Important twelve principles of green chemistry-

- it is better to prevent waste than to treat waste after it is formed.
- synthetic methods should be designed to maximize all the materials used in the process into the final product.
- Synthetic methodologies should be desined that possess little or no toxicity to human health and the environment
- Chemical product should be designed to preserve efficacy of function.
- The use of auxiliary substances should be made unnecessary wherever possible.
- Energy requirement should be recognized for their economic impact and should be minimized.
- A raw material of feed stock should be renewable rather than depleting.
- Unnecessary derivatisation should be avoided wherever possible.
- Catalytic reagents are superior to stoichiometric reagents.
- Chemical products should be designed so that at the end of their function, they do not break down in to innocuous degradation product.
- Analytical methodologies need to be further developed to allow for real time.
- Substances used in a chemical process should be chosen so as to minimized the potential for chemical accidents.

Department of Chemistry

A Seminar Report

Dated : 12.02.2020
Title : Nomenclature of Complex organic Compounds
Resource person : Dr. Surendra Nath Mohanty, Retd. Principal,
B.J.B., Junior College, Bhubaneswar

A departmental seminar on the topic "Nomenclature of Complex organic Compounds" was organized on Dt: 12.02.2020. Dr. Surendra Nath Mohanty, Retd. Principal, B.J.B. Junior College, BBSR was the Resource Person. Department HOD, Mr. Gadadhar Barik & Mr. Blaram Nayak, Lect. In Chemistry & The Resource Person Dr. Surendra Nath Mohanty enlightened all on the topic. 40 nos. of students were participated in the seminar.

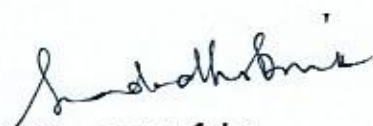

Synopsis:

The writing of name of an organic compound scientifically called as nomenclature of organic compound. It is done by two system such as common system and IUPAC system. In common system, there is no specific rules and regulations. But in IUPAC system, there are certain rules. In this system, there is a sequence i.e. prefix-word root-primary suffix- secondary suffix. Prefixes are used *for the substituent*.

Word root is number of carbon atoms present in the longest principal carbon chain like meth, eth, prop etc. for carbon atoms 1,2,3 respectively. Primary suffixes represent the type linkage between carbon atoms in the longest carbon chain. Primary suffixes are ane, ene, yne for carbon single bonds, double bonds, triple bonds respectively. Secondary suffixes represent the major functional groups like aldehydes, carboxylic acids, ketones, alcohols etc. Locants are used to represent the position of substituent's, primary suffixes or functional groups.

The Seminar is ended with a vote of thanks.

DEPARTMENT OF BOTANY

A SEMINAR REPORT

Topic- Linkage & Crossing Over

Date : 25.09.2019

A departmental seminar was organised on 25/09/2019 on the topic LINKAGE & CROSSING OVER. Mr. Prabodh Kumar Mohapatra, Reader in Botany of Khaira College, Khaira, Balasore joined as Resource Person. 40 nos. of students were present in the seminar. Miss Lopamudra Rana of +3 IInd Yr. Science presented her paper on Linkage & Miss Swetaleena Satapathy, +3 IInd Yr Science presented her paper on Crossing Over. The Resource Person and Faculties of this department discussed elaborately on this topics. Linkage helps the plant breeding to maintain the original parental characteristics crossing over changes change in the gene position in Chromosomes. It helps in the origin of variation and evolution of species. Non parental generations develop due to crossing over. It is very helpful in Plant Breeding Programme.

The seminar was ended with Vote of Thanks

Seminar on Gender Equity: Women in March in the 21st century

Resource Person- Mamata Mohapatra, Editor, Yugashree Yuganari
Dr. Suprava Das
Social worker and Rotarian Balasore

Date: 02.03.2020

A seminar on "Gender Equity: women in March in the 21st century" was organized in the college on 2.03.2020 under active organized of Women Empowerment cell. Seventy participants including employees and students of the college attendanted the seminar . Prof. Naresh Kumar Parhi ,the Principal of the college inaugurated the Seminar. Mrs Mamata Mohapatra the founder member, Yugashree Yuganari , Dr. Suprava Das social worker and Rotarian Balasore joined the Seminar as Resource Person. Dr. Prativa Mohanty , Vice – Chairmen of Women Empowerment Cell provided keynote address of the Seminar. The Resource Persons highlighted on the evils, torture and atrocities'. The Women of the world are still facing in this progressive era. The women are treated as subordinates in male dominated society. They are deprived of the right and denied of justice due to the whim and non-consideration of their just claim. They are taking strain more than their male counterpart in care, nursing, house holding management burden to please her dependents and discharging duties in offices, firms and places of work in case of working women. It is not sex but the mind set of modern men needs to be changed. While we analyst the role of woman at present, the outstanding work of female worker has been proved. In 21st Century in all most all spheres of work women have shown their excellence .They have shown their outstanding carriage in the flight, warfare, company management ,administration, medical care ,or teaching profession. In no case woman are unequal to male member , in some cases even better than them. Different instances were quoted to show the position and empowerment of Women at the stage of aviation, digitalization, education, education, cultural and communication services. After a session of Questionnaire, the Seminar was concluded with a vote of thanks to all by Miss Mamata Barik , Lectrurer in Odia.
